

With the introduction of Microsoft® Media Center Edition 2005 the converging of data and entertainment just got easier. PC Wholesale sees the possibilities and is positioned to help you take advantage of this product launch. We have done the research and development and are ready now with an offering to maximize the experience. Stop by our location at 752 Isom Rd. and see a demonstration of this powerful new product.

End users as well as business clients will want to experience MCE. The Corporate Executive typically will have some form of stereo system, television, and a computer. Now they can have all the functions in one system complimented with phenomenal ease-of-use software plus storage and recording ability. With the touch of a remote command your digital office with winning presentations and watch the results. Get ready to adopt MCE and watch your business grow.

Opportunity for service and support revenues

For the forward thinking professional Microsoft® Media Center Edition 2005 offers an opportunity to bring multimedia into any workplace or home. Once the domain of only the largest companies, MCE can make demonstrations and presentations stand out. A waiting room can become an automated billboard. A sales counter can be enhanced by a message in living color. Endless solutions and endless possibilities are available now.

Because of the nature of this experience, there are minimum hardware requirements. PC Wholesale can furnish you with a prebuilt Media Box or we can custom build one for you. We look forward to showing you what Microsoft® MCE 2005 and PCW can do for you.
